Faculty Search, Biomedical Engineering, Stony Brook University

The Department of Biomedical Engineering is inviting applications for an Assistant, Associate or Full Professor tenure-track faculty position in any BME area, including but not limited to: Cell and Molecular Bioengineering, Tissue Engineering, Regenerative Medicine, Biomechanics, Biomaterials, Biosignal Processing, and Instrumentation.

Candidates must have a Ph.D. in Biomedical Engineering or a related field and a minimum of 2 years of postdoctoral experience is preferred. Outstanding candidates wishing to be considered at the Associate or Full Professor level should have active, funded research programs in their area of expertise. Candidates are expected to maintain competitive extramurally funded research programs and to excel in teaching at both graduate and undergraduate levels. The Biomedical Engineering Department has close links to the Schools of Medicine and Engineering, Cold Spring Harbor Laboratory and Brookhaven National Laboratory. Please visit our website for more details - [http://bme.sunysb.edu](http://bme.sunysb.edu)

Qualified individuals are invited to submit a complete application including their CV, statement of research, teaching philosophy, and names/addresses of three or more professional references to: Stefan Judex, Ph.D., Chair, Search Committee, Stony Brook University, Bioengineering Building Rm 213, Stony Brook University, Stony Brook, NY 11794-5281. Applications shall be received preferably by August 15, 2012, but the position will remain open until filled. Possible start date: January 2013.
